RURAL DISTRICT OF ANDOVER  
PUBLIC HEALTH DEPARTMENT

August, 1965.

To the Chairman and Members of  
Andover Rural District Council.

Mr. Chairman, Ladies and Gentlemen,

In the absence of your Medical Officer of Health, I have the honour to present the Annual Report on the health and sanitary circumstances of your district for the year ending 31st December, 1964.

For the second year in succession the Registrar General has estimated the population at 20,020. The static situation is also shown in the number of births and deaths occurring during the year. The former credited with 399 is an increase of 7 over 1963 while the number of deaths registered at 132 is 22 less than the previous year.

There does not appear to be any significant difference in the vital statistics from past years. The infant mortality rate is slightly higher as it was in 1963 and although it is higher than the national figure of 20.0 it should be noted that this figure is the lowest ever obtained in this country. It must also be remembered that when one draws statistical conclusions in a small population a small deviation from the normal is often magnified.

My thanks are due to the Clerk for his report on housing matters and to the Senior Public Health Inspector for his report on the sanitary circumstances of the District, also to all the staff of the Public Health Department, for their assistance during my period with you as your 'locum tenens'.

I should also like to thank the Chairman and Members of the Council for all their kindness and co-operation during my temporary stay.

I remain, Mr. Chairman,

Ladies and Gentlemen,

*RE Robson*

Acting Medical Officer of Health.

General Statistics

(1963 figures in brackets)

Area (in acres)	67,811	(67,811)
Registrar General's estimate of mid-year population	20,020	(20,070)
1961 Census figure	16,832	
Number of inhabited houses	4,905	(4,664)
Rateable Value	£541,834	(£421,806)
Estimated sum represented by penny rate	£2,216 1s. 11d.	(£2,141 19s. 4d.)

The population trend of Andover Rural District is as follows:-

1956	21,730	1960	20,080
1957	19,540	1961	17,200
1958	21,050	1962	19,760
1959	20,240	1963	20,070
	1964	20,020	

Vital Statistics

		<u>Births</u>		
		<u>Male</u>	<u>Female</u>	
Total Live Births	399	200	199	
Legitimate Live Births	383	193	190	
Illegitimate Live Births	16	7	9	
Still Births	10	6	4	
		<u>Birth Rates</u>		
		<u>Andover</u>	<u>Rural District</u>	<u>England &amp; Wales</u>
Live Birth Rate		19.93		18.4
Comparability Factor		1.06		
Corrected Birth Rate		21.1		
Still Birth Rate		25.1		16.3
Illegitimate Birth Rate		4.0		
		<u>Deaths (All Causes)</u>		
		<u>Male</u>	<u>Female</u>	
Total	132	78	54	
Infant Deaths	11	8	3	
Neonatal Deaths	10	7	3	
Early Neonatal Deaths	9	6	3	
		<u>Death Rates</u>		
		<u>Andover</u>	<u>Rural District</u>	<u>England &amp; Wales</u>
All Causes		6.6		11.3
Comparability Factor		1.32		
Corrected Rate		8.6		
Total Infant Mortality Rate		27.8		20.0
Legitimate Mortality Rate		27.8		
Illegitimate Mortality Rate		0		

Andover Rural District

Neonatal Mortality Rate	25.1
Perinatal Mortality Rate	46.4
Early Neonatal Mortality Rate	25.0

(The Birth and Death Rates are calculated per 1000 of the population.  
The Infantile and Neonatal Mortality Rates are calculated per 1000 live births  
The Still Birth and Perinatal Mortality Rates are calculated per 1000 total  
births live and still.  
The Illegitimate Birth Rate is calculated as a percentage of total live births)

### Vital Statistics

#### Live Births

The total number of live births in the district was 399, 200 males and 199 females.

The Live Birth Rate corrected for age and sex distribution by the Registrar-General's comparability factor was 21.1 per thousand population, compared with 18.4 for England and Wales.

#### Still Births

10 still births were registered during the year, 6 male and 4 female. This gives a still birth rate of 25.1 compared with 16.3 for England and Wales.

#### Deaths

A total of 132 deaths occurred during the year, 78 male and 54 female. This gives a death rate corrected by the Registrar-General's comparability factor of 8.6 per thousand population, compared with 11.3 for England and Wales.

There were 11 infant deaths under 1 year of age and this gives an infant mortality rate of 27.8 compared with 20.0 for England and Wales.

#### Causes of Death

Heart Disease accounted for 38 deaths, 23 male and 15 female.

Cancer accounted for 24 deaths, 12 male and 12 female and of these cancer of the lung and bronchus accounted for 4 male deaths.

Apoplexy or Vascular Lesions of the Central Nervous System accounted for 18 deaths, 6 male and 12 female.

Respiratory Diseases accounted for 9 deaths, 8 male and 1 female.

Pneumonia - 1 male and 1 female

Bronchitis - 6 male

Other respiratory diseases accounted for 1 male death

Accidents 10 deaths occurred from accidents, 9 male and 1 female, and of these deaths, 6 were due to motor vehicle accidents, 6 male.

Suicide 2 male deaths from suicide were recorded.

Infantile, Neonatal and Early Neonatal Mortality 11 deaths of infants under one year were recorded in 1964, giving an Infant Mortality Rate of 27.8 per thousand live births. 7 infant deaths occurred in the first month of life, and 6 in the first week, which gives a Neonatal Mortality Rate of 25.1 and an Early Neonatal Mortality Rate of 25.1 per thousand live births. Perinatal Mortality. The Perinatal Mortality Rate which is the sum of the still births and the early neonatal deaths per thousand births (live and still) stands at 47.5.

---

#### Infectious Diseases

During the year, the incidence of notifiable infectious diseases was average for England and Wales, which does not merit special comment.

Details are set out in Appendix 'C' of this report, showing sex and age distribution.

### Immunisation and Vaccination

During 1964, vaccination against poliomyelitis continued using the Sabin type oral vaccine, which is considerably easier to administer, and much more appreciated by infants and babies. The immunity obtained is acquired very quickly and is longer lasting than that obtained by the previous methods of vaccination. A booster dose is also given to all children as soon as they enter Primary Schools.

The number of poliomyelitis vaccinations given during the year in the Rural District are given below:-

<u>Primary Doses</u>	<u>Boosting Doses</u>
369 (415)	125 (229)

(The figures in brackets refer to the  
previous year)

### Diphtheria, Whooping Cough and Tetanus

Immunisation against these three infections was continued using most frequently triple antigen; although combined antigens were sometimes employed when whooping cough immunisation was withheld for medical reasons.

Due to a change in ministerial Policy, Primary Vaccinations are not carried out now until after the first twelve months of the child's life.

The number of vaccinations given during the year are set out in Appendix 'D'

---

District Health Sub-Committee

The Andover and Kingsclere District Health Sub-Committee is a Sub-Committee of the Health Committee of the Hampshire County Council. As each District Council appoints three Councillors and two co-opted members representing voluntary organisations it has available a considerable amount of valuable information concerning the three districts.

Reports are submitted on infectious disease, births and deaths, registration and inspection of nurseries, immunisation and vaccination, midwifery and maternity services, home help services, district nurses' accommodation and 'Meals on Wheels', in which all three districts have a common interest.

In addition, the Sub-Committee appoints district nurses and midwives, submits financial estimates for the Home Help Service and deals with such matters as the distribution of Welfare Foods and other activities concerned with Child Welfare Centres.

-----

### Mains Water Supply

Number of samples taken - 24

The mains water supply in the area under the control of the Southampton Water Corporation was entirely satisfactory both in quantity and quality. No complaints were received by the Department concerning the supply.

### Drainage and Sewerage

The Bourne Valley Drainage Scheme which will drain the villages of Hurstbourne Tarrant and Longparish together with St. Mary Bourne and Stoke in the Kingsclere and Whitchurch Rural District was well under way by the end of the year. Probably the completion of the works will be at the end of next year.

The scheme for the drainage of Abbotts Ann and Upper Clatford continued during the year. By the end of the year the work was almost completed.

### Public Cleansing

The weekly refuse collection was maintained throughout the district and as last year all refuse was tipped on a controlled tip at Chilbolton Down.

The cess pool emptying service still continues and even with the increase in the number of villages now seweried the call on this service appears to be increasing.

### General Inspection of the Area

Visits in connection with Meat Inspection	602
Visits (including re-visits) carried out in connection with the Housing Acts	137
Visits (including re-visits) carried out under Public Health Act, 1936	141
Visits to premises in connection with Food Hygiene	111
Inspections to power and non-power factories	34
Visits in connection with Domestic Water Supplies	124
Rodent Control Inspection (this figure includes inspection with other visits)	95
Inspection and visits to Moveable Dwellings	85

<u>General Inspection of the Area</u>	
Visits in connection with Infectious Disease Enquiries	16
Inspection of Petroleum Installations	59
Visits (including re-visits) carried out in connection with the Offices, Shops and Railway Premises Act, 1963.	133
Other visits (including sampling, outside interviews etc.)	276

Water Supplies

During the past year 178 more properties have received their supply from the Main Supply.

	<u>No. of Dwellings Supplied from Main</u>
Abbotts Ann	187
Amport	141
Appleshaw, part Fyfield, Kimpton	349
Barton Stacey and Bullington	270
Chilbolton	206
Clanville	26
East Cholderton	10
Goodworth and Upper Clatford	318
Grateley	140
Hatherden	54
Hurstbourne Tarrant	152
Longparish	133
Monxton	76
Penton Grafton	36
Penton Mewsey	62
Quarley	41
Shipton Bellinger (Cholderton Water Co.)	208
Tangley	20
Thruxtion	105
Vernham Dean and Upton	149
Weyhill	162
Wildhern	37
Wherwell	97

Bacteriological Examination of All Water Supplies

Private and Public

No. of samples taken	99
No. of samples reported satisfactory	87
No. of samples reported unsatisfactory	12

Caravan Sites and Control of Development Act, 1960

There has been no increase in the permanent number of caravan sites throughout the year and the figure still remains at four. A Successful application to increase the number of caravans from 12 to 30 was made by one of the Owners of the Sites. This gives a permanent figure of 93 caravans

Difficulty is still being experienced in obtaining caravan sites and although the Planning Authorities have agreed to the Council using land at Amport as a permanent site it has not yet been possible for the Council to purchase the necessary land from the R.A.F.

Shops

No statutory action was taken during the year.

Factories

Inspections for the purpose of provisions as to health and of sanitary accommodation in the case of power factories.

<u>Premises</u>	<u>No.</u>	<u>No. of Inspections</u>
(i) Factories in which Sections 1,2,3, 4 or 6 are to be enforced by Local Authority	2	8
(ii) Factories not included in (i) in Which Section 7 is enforced by Local Authority	26	26
(iii) Other premises in which Section 7 is enforced by Local Authority (excluding outworkers' premises)	Nil	Nil
	28	34

Factories

Cases in which defects were found	-	8
Cases in which defects were remedied	-	4

Offices, Shops and Railway Premises Act, 1963

Preliminary inspections of all properties considered to come within the scope of the above Act were carried out during the year. This involved visits to 133 premises from these visits it was found that 71 premises required to be registered and by the end of the year the majority of premises were registered with this Department.

---

HOUSING

Housing Repairs and Rents Act, 1954

	<u>No. of appli- cations</u>	<u>No. of resultant dwellings</u>	<u>'Estimated Expense'</u>	<u>Amount of Grant</u>
Conversions	2	2	£1,745 10s. 0d.	£800
Improvements	15	15	£9,659 6s. 4d.	£4,632
Refusals	1	1		
Total	18	18	£11,404 16s. 4d.	£5,432

Work in respect of 18 dwellings was completed

Informal Action

No. of defective dwelling houses rendered fit in consequence of informal action by the Local Authority or their officers.

38

Statutory Action

1. Proceedings under Sections 9 and 16, Housing Act, 1957

(a) No. of dwelling houses in respect of which notices were served requiring repairs

5

(b) No. of dwelling houses which were rendered fit after service of formal notice

(i) by owners

Nil

(ii) by Local Authorities in default of owners

Nil

2. Proceedings under Section 17, Housing Act, 1957

(a) No. of dwelling houses in respect of which Demolition Orders were made

2

(b) No. of dwelling houses demolished in pursuance of Demolition Orders or by formal action

Nil

(c) No. of representations made to the Local Authority with a view to:-

(i) The serving of notices requiring the execution of works

Nil

(ii) The making of a Demolition or Closing Order

7

- (d) No. of houses in respect of which an Undertaking was accepted under sub-section 4 of Section 16 and sub-section 1 of Section 35 of the Housing Act, 1957 5
3. Proceedings under Section 18 of the Housing Act, 1957
- (a) No. of separate tenements or underground rooms in respect of which Closing Orders were determined, the tenement or rooms having been rendered fit. Nil
- (b) No. of separate tenements or underground rooms in respect of which Closing Orders were made. Nil
-

Inspection and Supervision of Food

(a) Milk Supply

No. of Registered Distributors	1
No. of Registered Distributors outside the area selling milk within the area	7

(b) Slaughterhouses

The Slaughterhouse, Appleshaw, continued to operate during the year, the kill figures compared similarly to last year for cattle but with a large increase in the amount of sheep and pigs killed.

Through communications with the new Owners the cooling hall was doubled in size and a new large refrigerator installed. The lairage accommodation was also greatly increased.

A hundred per cent meat inspection has been maintained in compliance with the Meat Inspection Regulations, 1963 and although difficulty is sometimes still encountered with inspection it is hoped that the position will improve when the Trainee Meat Inspector is qualified.

The quality of animal killed at the Slaughterhouse has continued to be good and it is pleasing to note that the amount of disease encountered is on the decrease. As has been the custom in the past condemned meat is removed under supervision and is used for the manufacture of fertilizers

Cattle (excluding Cows)	21.62%	(23.3%)
Cows	34.62%	(60.0%)
Calves	5.48%	( 5.0%)
Sheep and Lambs	1.86%	( 2.4%)
Pigs	21.98%	(18.4%)

(c) Ice-Cream - Retail Premises

Three additional premises were registered for the storage and sale of pre-packed ice-cream during the year. From samples taken during the year the standard of ice-cream was shown to be high. All ice-cream in the area is stored and sold pre-packed.

(a) Food Premises

The number of food premises in the area is as follows:-

(i)	Grocers and General Stores	47
	Bakers	6
	Butchers	4
	Cafes, Restaurants and Hotels	14
	Licensed Public Houses and Inns	40
(ii)	No. of food premises registered under Section 16 of the Food and Drugs Act, 1955	
	Sale of pre-packed ice-cream	62
	Preparation and manufacture of sausages etc.	4

(c) Food Inspection

The following food was condemned during the year:-

6 x 8 lb. 14 oz. Tins of Ham  
18 lb Cod Fillets

During the year three complaints were made to the Department regarding unsatisfactory food. Investigations were carried out into each complaint and a satisfactory conclusion reached. In no case was it necessary to instigate legal proceedings.

Following the Typhoid Outbreak at Aberdeen, inquiries were made on all retail shops and food premises within the district to ascertain the existence of any suspect tins. From these inquiries two tins were removed from circulation.

(f) Adulteration

The Council is not a Food and Drugs Authority.

(g) Food Poisoning Outbreaks

There were no confirmed cases of food poisoning during the year.
